June 2027

RELEVANT EXPERIENCE

Triceratops - Client Project

Designer & Developer

Davis, CA

June 2025 – Present

- Designed and developed the Rules page, utilized Figma for visual design & Github for development, delivering a responsive site that captures the club's aesthetic and branding
- Conducted user research through interviews/surveys, synthesized findings into affinity maps and information architecture, and applied findings to create the visual-style and design system that differentiates the site from regular templates, increasing user confidence and reducing navigation errors
- Conducted usability testing on mid- and high-fidelity prototypes, refining the prototype based on feedback and external design review, which identified key interaction improvements and resulted in a smoother user flow
- Built assigned page using VS Code, collaborating with the design team via GitHub, ensuring code quality through peer reviews
- Managed a 5-week sprint that includes research, ideation, wireframing, usability testing, and development, delivering a complete prototype on time

Foundverse

Marketing & UX/UI Intern

Davis, CA

June 2026 – August 2026

- Developed social media content ideation and strategy with calendars and content pillars, which resulted in consistency in posting & branding
- Created a waitlist landing page for the Build Sprint cohort, designing the user experience and positioning message in Figma, which streamlined the sign-up flow and grew the waitlist
- Developed Foundverse's visual identity in Figma, establishing brand consistency across all marketing materials and digital assets. This led to a consistent brand book for the company
- Produced social media content by writing shoot-day scripts, filming, photographing, and drafting captions, and implemented consent tracking for teen participants. This made sure we used legal compliance and trustworthy content
- Collaborated with founder Diana to align all marketing decisions with the brand voice and goals, maintaining cohesive messaging across channels

EKHO Dance

Dance & Social Media Director

Davis, CA

June 2025 – Present

- Collaborated with Post-Production Director to design graphics for all SNS platforms, using Adobe Photoshop and Canva, which maintained visual consistency across all channels
- Managed social media platforms and created content to improve metrics and keep consistent engagement throughout the year
- Guided team members in captions and graphics for social platforms
- Utilized Adobe Photoshop and Canva to design layouts and thumbnails that enhance visual engagement and maintain brand consistency, leading to higher click-through rates
- Point of contact and outreach for all dance opportunities and collaborations, increasing exposure to our team
- Oversaw dance cover shoots and event planning for performances, and coordinating schedules, which improved audience reach and event attendance

Design Interactive

Designer (Fellow)

Davis, CA

April 2026 – June 2026

- Collaborated with my partner to design Harmonize, a community music app that connects musicians and producers, using Figma for wireframes and visual assets, which resulted in a prototype backed up with UX research
- Established a warm and recognizable visual identity, which differentiated the app from typical music platforms and improved brand recognition during early user testing
- Contributed to ideation sessions and led early research by conducting affinity maps and user interviews, which clarified user needs and ensured a cohesive design direction for the app
- Designed and prototyped the Challenge and Feed screens in Figma, with intention that improved discovery and community engagement, resulting in a more intuitive user experience
